

## **ENVIRONMENTAL ENGINEER**

DeWild Grant Reckert and Associates Company (DGR) is a growing, multi-discipline consulting engineering firm with headquarters in Rock Rapids, Iowa, and currently has career opportunities in its Environmental Engineering Department.

DGR's Environmental Engineering department specializes in the design of collection, transmission, and treatment systems for the wastewater needs of municipal, industrial, and private clients. Typical projects include gravity sewer collection system design, lift station and force main design, mechanical wastewater treatment plant design, lagoon and constructed wetland design, sewer rehabilitation, and agricultural wastewater systems.

We are seeking licensed Civil Engineers with an emphasis in wastewater collection and treatment or agricultural wastewater systems. Typical work assignments involve design, plan preparation, project management, and construction administration, for all phases of Environmental Engineering related projects. Knowledge of Excel and Civil 3D AutoCAD computer design software and previous project management experience is desired. Applicant must possess good communication skills and have the ability to work with a wide variety of clients.

Our firm offers a competitive salary and benefits package with opportunity for advancement in a challenging and professional work environment. Qualified individuals should email or send a resume and cover letter with available start date to the address shown below.
