

CIVIL ENGINEER

DeWild Grant Reckert and Associates Company (DGR) is a growing, multi-discipline consulting engineering firm with offices in Rock Rapids and Sioux City, Iowa, and Sioux Falls, South Dakota. DGR currently has an immediate opening in the Sioux City office for an entry level engineer.

DGR's Sioux City office specializes in the design infrastructure improvements for both private development and municipal applications. Typical projects include gravity sewer collection system design, water main distribution system design, storm water drainage and detention design, street layout and design for new construction and reconstruction, and site design for development from individual lots to residential, commercial, and industrial subdivisions.

We are seeking Civil Engineering graduates (BS or MS) with an emphasis in municipal and transportation course work. Typical work assignments involve design, plan preparation, drafting, construction administration, and construction observation for all phases of Civil Engineering related projects. Knowledge of AutoCAD Civil 3D is desired. Applicant must possess good communication skills and have the ability to work with a wide variety of clients.

Our firm offers a competitive salary and benefits package with opportunity for advancement in a challenging and professional work environment. Qualified individuals should email a resume and cover letter with available start date to bmastbergen@dgrnet.com or mail to the address shown below.
